AUSTRALIAN ENERGY REGULATOR

Wholesale Statistics Review 2020

AEMO GWCF - Thursday 18 June 2020

aer.gov.au

Where are they located?

https://www.aer.gov.au/wholesale-markets/wholesale-statistics

What we are doing?

- Currently 52 charts and tables covering:
    - gas liquidity (GSH and DAA)
    - prices
    - pipeline flow
    - demand
    - production
    - MOS and ancillary payments
    - GPG
- Aims of review:
    - Consolidate and remove duplication
    - Less detail in charts, more data available for download
    - New metrics for STTM/DWGM liquidity, OTC trades and LNG trends currently reported with our **Wholesale Quarterly Report** https://www.aer.gov.au/wholesale-markets/market-performance/wholesale-markets-quarterly-q1-2020
    - more user friendly and tailored to stakeholder needs

What we are doing?

- e.g. DAA – additional data/charts reporting delivery zones, utilisation rates, pipeline bidding and excess demand

What we are doing?

- e.g. GSH – consolidating charts, less-crossover, more GSH data including spread trades.

Gas Supply Hub – On Market trades, Spread trades (exchange traded)

Gas Supply Hub – Products traded at Wallumbilla

Seeking participant feedback

- Do you access the data and how do you use it?
- What would you like to see?
- How granular would you like the data – yearly, quarterly, monthly?

DAA – Facility operator performance
