Dear Mr Jackson

Power System Frequency Risk Review Draft Report

Ergon Energy Corporation Limited (Ergon Energy) and Energex Limited (Energex) welcome the opportunity to review and comment on the Australian Energy Market Operator's (AEMO) Power System Frequency Risk Review Draft Report (Draft Report) 2018 prepared in accordance with clause 5.20A.1 of the National Electricity Rules.

Both Ergon Energy and Energex are part of the Energy Queensland Group that manages the electricity distribution networks that supply electricity to customers in the state of Queensland, including isolated communities which are not connected to the main electricity grid.

Ergon Energy and Energex do not have any specific comments against the Draft Report at this stage. However, we recognise the potential system frequency risks which may occur and are appreciative of the efforts of AEMO and Powerlink to address these issues in Queensland. Going forward, Ergon Energy and Energex are interested in providing continued assistance to AEMO.

In the meantime, should you require any assistance from us, please do not hesitate to contact me or the Manager of Policy and Regulatory Reform, Trudy Fraser, on (07) 38516787.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Jenny Doyle'.
