

SUMMARY OF CAPACITY CREDITS ASSIGNED BY FACILITY FOR THE 2016 RESERVE CAPACITY CYCLE

For the Capacity Year from 1 October 2018 to 1 October 2019

In accordance with clause 4.15.1, clause 4.20.5A, and clause 10.5.1(f)(iv) of the Wholesale Electricity Market Rules, the Australian Energy Market Operator has assigned Capacity Credits to Facilities that must provide Reserve Capacity into the South West interconnected system for the 2018–19 Capacity Year. Following the assignment of 4,822.009 MW of Certified Reserve Capacity, a total of **4,819.033 MW** of Capacity Credits were approved and assigned.

AEMO has secured sufficient Capacity Credits to meet the Reserve Capacity Target of 4,620 MW from Facilities that were not required to provide Reserve Capacity Security. As such, the Reserve Capacity Auction for the 2016 Reserve Capacity Cycle has been cancelled.

No Certified Reserve Capacity:

- Was assigned under the Early Certified Reserve Capacity provisions of clause 4.28C of the WEM rules.
- Would have been offered into the Reserve Capacity Auction if one had been held.
- Is subject to a Special Price Arrangement.
