Summary of DWGM Contacts

The following table lists the DWGM Contact types and associated communications. The following details are provided for each contact type:

- A short description of the purpose of the contact type.
- The communications that the contact will receive, and the method of communication (e.g. SMS, email).
- The types of DWGM roles to which the contact applies (e.g. market participants (retailers, market customers and traders), facility operators (DTS Service Provider, Producers, Storage Providers, Interconnected Transmission Pipeline Service Providers, Distributors))
- Whether a single contact or multiple contacts may be registered under the contact type.

For each contact type please provide first name, last name, job title, email address, business phone, fax number and mobile number. Please ensure that each person whose details are provided are made aware of [AEMO's Privacy Policy](#) which explains how AEMO manages personal information.

Participants **must** have at least one of each contact type. Registered Participants can review their current contact details in MIBB report INT134. Please note MIBB report INT134 also includes STTM contact types from MIS report INT713 as per the Guidance on Summary of STTM Contacts.
