<ul> <li>the operation of the Procedures.</li> <li>A marked up version of the Procedure change (see Attachment A).</li> <li>4. Consequences for making or not making the change(s)</li> <li>A EMO considers that the amendments to the Accreditation Procedure makes explicit AEMO's ability to revoke accreditation. The new Accreditation. Procedure makes explicit AEMO would seek to revoke accreditation. Previously AEMO implicitly under the Rules had the ability to grant accreditation. AEMO considers that this change provides greater clarity and</li> </ul>	existing operation of		
making or not making the change(s)Procedures clarify the requirements on the Market Participant when seeking accreditation.The new Accreditation Procedure makes explicit AEMO's ability to revoke accreditation and the situations in which AEMO would seek to revoke accreditation. Previously AEMO implicitly under the Rules had the ability to revoke Accreditation.AEMO considers that this change provides greater clarity and	<ul> <li>proposed change to the operation of the Procedures.</li> <li>A marked up version of the Procedure change (see</li> </ul>	the substantial changes between version NGR 2.0 and version 3.0 of the Accreditation Procedures, which amounted to completely rewriting the Procedure, a change marked version of the Procedure has not been provided. Version NGR2.0 of the Accreditation Procedure is publicly available on the AEMO	
to revoke accreditation and the situations in which AEMO would seek to revoke accreditation. Previously AEMO implicitly under the Rules had the ability to revoke Accreditation which was granted by AEMO's ability to grant accreditation. AEMO considers that this change provides greater clarity and	making or not making the	Procedures clarify the requirements on the Market Participant	
		to revoke accreditation and the situations in which AEMO would seek to revoke accreditation. Previously AEMO implicitly under the Rules had the ability to revoke Accreditation which was	

5. Explanation regarding the order of magnitude of the change(s) (eg: material, non-material or non-substantial)	AEMO considers that the changes to the Accreditation Procedures will have a material impact on market participants as it clarifies the situations in which AEMO will revoke the accreditation. While AEMO was implicitly able, under the Rules, to revoke accreditation which is inferred by AEMO's ability to grant accreditation. As such, explicitly stating conditions under which AEMO would revoke accreditation has reduced the regulatory risks of market participants.	
6. Likely benefits for industry as a whole	The industry is expected to benefit from:	
	<ul> <li>clarity concerning the obligations on a market participant when seeking accreditation.</li> </ul>	
	<ul> <li>reduced risks due to clarity concerning the situations in which AEMO would seek to revoke accreditation.</li> </ul>	
7. The likely implementation effect of the proposal on Industry in general and/or any identified parties (e.g. end-users)	AEMO has been unable to identify a party that would be adversely affected by the implementation of the new Accreditation Procedures.	
8. Testing requirements	There are no testing requirements.	
9. Supporting Documentation	The following documents providing supporting information concerning this Procedure change:	
(attach if necessary)	GWCF 178 12 February 2013 minutes	
	<ul> <li>GWCF 13-023-01 - Accreditation Procedures - Discussion paper – discussion paper</li> </ul>	
	<ul> <li>GWCF 13-023-01 – Appendix A – Draft Wholesale Market Accreditation Procedures</li> </ul>	
	<ul> <li>GWCF 13-023-01 – Appendix B – Wholesale Market Accreditation Procedures (current)</li> </ul>	
	<ul> <li>GWCF 13-023-01 – Appendix C – Application for Accreditation of Controllable Quantities</li> </ul>	
	GWCF 13-023-01 – Appendix D – Application for	

	Registration of Demand Forecast Validation Quantities
	regionation of Demand Forebast validation additities
	<ul> <li>GWCF 13-023-01 – Appendix E – Accreditation Rule Requirement (NGR 210)</li> </ul>
	The documents are available on AEMO's website ( <u>www.aemo.com.au</u> ) on the Gas Wholesale Consultative Forum webpage.
10. If applicable, a proposed effective date for the proposed changed Procedures to take effect and justification for that timeline.	AEMO proposes that the new Accreditation Procedures become active 15 business days after the completion of the Ordinary Process for making Procedures, required by Rule 135EE, to implement the new Accreditation Procedures.
