Dear Hitesh,

The City of Sydney intends installing the following new light source throughout our public domain lighting network with the aim of reducing energy use and greenhouse emissions.

EPTC Twin Contemporary

- **GE EPTC Twin Contemporary 86W LED Post Top**
- **GE EPTC Twin Contemporary 49W LED Post Top**

To introduce these luminaires into the public street light network in NSW, the device load for the luminaires fitted with above light source must be included in the AEMO load tables. Please confirm that you will move to initiate the inclusions of these luminaires in the load table and advise when it has been published in the AEMO load table.

Yours Sincerely
