Connections snapshot as at 17 February 2023

	<b>Enquiry<sup>†</sup></b> (Connection enquiry reported in KCI data - Connection application not submitted)	<b>290</b> projects at this stage	<b>90,934 MW</b> of generation at this stage
		Jan. 23 scorecard: <b>290</b>	and <b>90,934 MW</b>
	<b>Connection application</b> (Connection application submitted - 5.3.4A not approved)	<b>55</b> projects at this stage	<b>11,268 MW</b> of generation at this stage
		Jan. 23 scorecard: <b>50</b>	and <b>9,312 MW</b>
	<b>Preparing for registration</b> (5.3.4A approved – R1 package not submitted)	<b>51</b> projects at this stage	<b>7,754 MW</b> of generation at this stage
		Jan. 23 scorecard: <b>48</b>	and <b>7,409 MW<sup>§</sup></b>
	<b>Registration</b> (R1 package submitted – Registration not approved)	<b>10</b> projects at this stage	<b>1,600 MW</b> of generation at this stage
		Jan. 23 scorecard: <b>10</b>	and <b>1,554 MW<sup>§</sup></b>
	<b>Commissioning</b> (Registration approved – Full commercial operation not approved)	<b>37<sup>‡</sup></b> projects at this stage	<b>3,753 MW</b> of generation at this stage
		Jan. 23 scorecard: <b>47</b>	and <b>5,366 MW</b>

<sup>^</sup> Connections scorecard data as at 17 February 2023.

<sup>†</sup> Enquiries are taken from November KCI data (updated quarterly) and only include TNSP connections.

<sup>§</sup> January 2023 scorecard incorrectly included a project in 'Preparing for Registration' when it should have been recorded under 'Registration'.

<sup>‡</sup> Five projects moved out of commissioning as they are not adding capacity to the NEM.

# Excludes 1 project which is a significant outlier.

\* Compared to connections scorecard data as at 9 January 2023.
