Department of
Transport and Main Roads

27 November 2017

Mr Terry Cook
Pecan Lighting
13/19 heath Street
Lonsdale, SA 5160

Attention: Terry Cook

Dear Terry

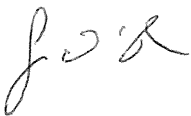

As the Queensland Department of Transport and Main Roads (TMR) transitions across to LED technology we will be assessing advancements in luminaire design and light output. The following light sources will be assessed for use on TMR roads.

- LRL NXT-Lite-60M 160W with Nema 7 Socket
- LRL NXT-Lite-60M 215W with Nema 7 Socket

To introduce these luminaires into the public lighting network in Queensland, the device load for the afore-mentioned luminaires must be included in the AEMO load table.

Please confirm that you will move to initiate the inclusion of the luminaires in the AEMO load table and advise when it has been published.

Yours sincerely

Greg O'Dea
Principal Technician (Lighting)
