Department of
Transport and Main Roads

31 August 2017

Mr Trevor Leighton
Schröder Australia
6 Jayelem Crescent
New South Wales 2227

Attention: Trevor Leighton

Dear Trevor

As the Queensland Department of Transport and Main Roads (TMR) transitions across to LED technology we will be assessing advancements in luminaire design and light output. The following light sources will be assessed for use on TMR roads.

- AVENTO 2 240 LED NW 179w with Nema 7 Socket
- AVENTO 2 288 LED NW 213w with Nema 7 Socket
- AVENTO 2 336 LED NW 249w with Nema 7 Socket

To introduce these luminaires into the public lighting network in Queensland, the device load for the afore-mentioned luminaires must be included in the AEMO load table.

Please confirm that you will move to initiate the inclusion of the luminaires in the AEMO load table and advise when it has been published.

Yours sincerely

Greg O'Dea
Principal Technician (Lighting)
