Re: Request of inclusion onto National Electricity Load Table

Dear Mr. Ripper,  
We would like to request that the following luminaires to be included on the NEM Load Table.

Light Engine	Product types	System Power	Ext. marking
200mA – 16LEDs	F1-XS GO IR1 DA400 FA770 FA410 FA170 FA100 FO420 CO500 CN500 VM-S	11.12W	S11 23
400mA – 16LEDs	F1-XS GO IR1 DA400 FA770 FA410 FA170 FA100 FO420 CO500 CN500 VM-S	20.65W	S20 23
700mA – 32LEDs	F2-XS IR2 VM-S FA770 FA410	69.01W	S69 23
550mA – 64LEDs	F4-S FO600 VM-M FA770	105.99W	S106 23

mail@ewo.com

Here attached the four test reports.

Please note that all luminaires are supplied with a label in the box as per their designated external marking to be applied to the underside of the luminaire.  
The external markings are compliant to TS 1158.6.

I have also attached the luminaire specification sheet and the letter from the Sunshine Coast City Council in Queensland.

Please let me know if you require any further/additional information.

Thank you.
