¹ <https://www.erawa.com.au/electricity/electricity-licensing/do-you-need-a-licence>.

² Having the meaning given in clause 3.21A.1 of the Wholesale Electricity Market Rules (WEM Rules). Commissioning Tests are deemed to be completed when both AEMO and Western Power are satisfied, and Western Power has issued an Interim Approval to Generate Notification (IATGN)/Interim Approval to Operate (IATO) or Approval to Generate Notification (ATGN)/Final Approval to Operate (FATO) certificate.

³ For a Market Participant holding Capacity Credits, determined in accordance with clause 4.12.1 or clause 4.28C of the WEM Rules.

1 Key activities completed during past three months

Activity	Notes/Comments

2 Key activities scheduled for the coming three months

Activity	Notes/Comments

3 Other information relating to the progress of the Facility

Are there any factors you are aware of that exist, or are likely to exist, that could affect the ability of the Facility to fully meet the Reserve Capacity Obligations by the due date as determined in accordance with clause 4.1.26 of the WEM Rules?

(This could include, among other things; supplier/contractor delays, staffing issues, EPA delays, ETAC delays, cancellations or restrictions. Any information submitted will be classed AEMO CONFIDENTIAL)

If yes, please state:

Activity/Issue Description	Notes/Comments	Potential Consequence

Declaration

(To be provided by an Authorised person. For the purposes of this procedure an "Authorised" person is as described in WEM Rules).

On Behalf of (company or business name) I declare that the information provided in respect to this progress report is accurate
