

Summary of Capacity Credits assigned for the 2009 Reserve Capacity Cycle

(This covers the period from 1 October 2011 to 1 October 2012)

This document is published in accordance with Market Rule 10.5.1(f) iv and 4.15.1

The Independent Market Operator has assigned Capacity Credits to facilities which will provide capacity into the South West Interconnected System during the third Reserve Capacity Cycle. A total of **5,493.486** MW of Capacity Credits have been assigned to 25 generation and demand side management providers from 5793.386 MW of assigned Certified Reserve Capacity. The assigned Capacity Credits are shown in the table below.

In accordance with the Market Rules, the IMO has assigned Capacity Credits to certified Facilities that nominated their intention to bilaterally trade their Capacity Credits. The IMO has secured sufficient Capacity Credits to meet the Reserve Capacity Requirement. As a consequence a Reserve Capacity Auction is not required.
