

## Fact Sheet

This fact sheet provides information on how AEMO NEMWEB reports can be accessed for Frequency Performance Payments (FPP) reform data.

### Accessing Report Data

AEMO collects and collates a range of data relating to the National Electricity Market (NEM). One of AEMO's goals is to promote greater information transparency and assist the market and general public in understanding how the NEM has evolved and operates.

Public Market data can be accessed via NEMWEB: <https://visualisations.aemo.com.au/aemo/nemweb/index.html>

Frequency Performance Payments data can be accessed via the *Current Reports* link.

#### Current Reports

All recent files are stored in our current reports directory.

#### Archive Reports

Older files are automatically moved into the archive and up to thirteen months of data is stored.

#### Data Model Archive

Older data is stored here in the Data Model Archive.

### FPP Data

There are four FPP folders in the directory that can be accessed. The data stored here provides a broad historical view.

#### FPP

Contains public Default Contribution Factors data that are published daily.

#### FPP DAILY

Published at the commencement of a *trading day*, contains public Unit MW data for the previous *trading day*.

#### FPP RATES

Published at the end of each *market interval*, contains estimated public FPP cost rate data.

#### FPP RUN

Published at the end of each market interval, contains public Frequency Measure data for *Raise* and *Lower Regulation Services*.

### FPP Dashboards

AEMO FPP Dashboards will show a real time view of FPP data for the previous 24 hours. They can be accessed [here](#).

## Where can I find more information?

See AEMO's website for the Frequency Performance Payments project page.
