

B2B Procedures

- Customer and Site Details
- Service Orders (version change)
- Meter Data (version change)
- One Way Notification (version change)
- Technical Delivery Specification (version change)

CONSULTATION – Draft Stage

CONSULTATION PARTICIPANT RESPONSE TEMPLATE

Participant: TasNetworks

Completion Date: 18 June 2018

Table of Contents

1. Customer and Site Details 3

1. Customer and Site Details

Participant Name	Old Clause No	New Clause No	Comments
TasNetworks		Clause 2.2 Figure 3	Timing point F should be timing point K
TasNetworks		Clause 2.2 Figure 3	Timing point G should be timing point L
TasNetworks		Clause 4.1(a)	The word “Changes” on the second line should have a lowercase “c”
TasNetworks		Clause 4.1(b)	Insert the word “the” between “not” and “CustomerDetailsNotification”
TasNetworks		Clause 4.1(d)	Insert the word “fields” after “non-Mandatory”
TasNetworks		Clause 4.3.1 (c)	Suggest changing the words “Customer Changes” to “changes in Customer information”
TasNetworks		Clause 4.3.1 (d)	Suggest changing the words “a Customer Change” to “changes in Customer information”
TasNetworks		Clause 4.5 (a)	Remove “space” at start of second line before the word “following”
TasNetworks		Clause 4.5 (d)	Suggest changing the words “Customer Details Changes” to “changes in Customer information”
TasNetworks		Clause 4.6 (i)	Suggest changing the words “Life Support Changes” to “changes in Life Support information”
TasNetworks		Clause 4.8 (a)	Suggest changing the words “Site Access Changes” to “changes in Site Access information”
TasNetworks		Clause 4.8 (e)	Suggest changing the words “Site Access changes” to “changes in Site Access information”

Participant Name	Old Clause No	New Clause No	Comments
TasNetworks		Clause 5.2 Table 6	In the BusinessName field add the statement “Refer to B2B Procedure: Technical Delivery Specification”
TasNetworks		Clause 5.2 Table 6	In the SensitiveLoad field it is suggested to make the following grammatical changes: “The value “Sensitive Load” is used to indicate that the Initiator reasonably believes there are economic, health or safety issues with loss of supply of to the Connection Point, other than Life Support ones.”
TasNetworks		Clause 5.4 Table 8	The SiteAccessNotification Data table includes Field values related to the NMW transaction that need to be removed.
TasNetworks		Clause 5.5 Table 9	Change the Format of the Reason Field to VARCHAR (14) as this is similar in use to the Movement Type Field in the CDN
TasNetworks		Clause 5.5 Table 9	Change Format of LifeSupportStatus Field to VARCHAR (50) to cater for largest allowable value
TasNetworks		Clause 5.5 Table 9	The Format of the DateRequired Field, being DATE, is not defined in the B2B Procedure: Technical Delivery Specification. It is recommended that the Format be changed to DATE(8) or DATE(10)
TasNetworks		Clause 5.5 Table 9	It is suggested to reduce the Format field length of LSEquipment from VARCHAR (100) to VARCHAR (50) as it only needs to cater for the largest value available.
TasNetworks		Clause 5.5 Table 9	It is suggested to increase the Format field length of LSContactEmailAddress from VARCHAR (40) to VARCHAR (100) to align with the CDN
