

PCR response template for IN003/20W (CDN and CDR changes for WA) – Responses to be emailed to grcf@aemo.com.au by 24 July 2020.

Review comments submitted by: *Origin Energy*

Date: 24 July 2020

Contact Person: *Joe Castellano*

Please complete sections 1 and 2. Section 3 is optional.

Section 1 - General Comments on the Procedure Change Request

Topic	Please Provide Response Here
<p>Sections 1 to 9 of the PCR sets out details of the proposal.</p> <p>Does your organisation supports AEMO’s assessment of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO’s assessment (include PCR section reference number) of the proposal and include information that supports your organisation’s rationale for not supporting AEMO’s assessment.</p>	<p>Origin Energy supports this change if bundled with other East Coast and WA gas market changes. This would be beneficial from a cost and efficiency perspective as testing and development of transactions will be done at the same time.</p> <p>In terms of the timeline outlined in section 1.2 (Q4 2021), Origin Energy recommend that due to several other initiatives the market has scheduled for Q4 2021 i.e. 5 Minute Settlements, B2B Procedures for Electricity, that all gas market changes be moved to 2022 to alleviate the risks associated with multiple market changes occurring within a short timeframe.</p>

Section 2 - Feedback on the documentation changes in the Attachments of the PRC.

Participants are to complete the relevant columns below in order to record their response.

Ref # 1 - AEMO Specification Pack - FRC B2B System Interface Definitions

RMP Clause #	Issue / Comment	Proposed text Red-strikeout means delete and <u>blue underline</u> means insert	AEMO Response (AEMO only)
4.6.1 – Process Diagram (p172)	This process flow requires an update to make it WA specific i.e. CDN publishing only in response to CDR, or can AEMO confirm if the CDN is sent in all scenarios i.e. new customer, update to customer details?		
4.6.2.1 CustomerDetailsNotifica tion	For WA, the proposal is for the Retailer to issue CDN only in response to CDR. On page 173 of FRC B2B System Interface Definitions document, no such precondition is documented. This seems to refer to East Coast process. Should this pre-condition be outlined clearly in this document?		
4.6.2.1 Transaction Data Elements	CDN transaction details on page 174 should include details on 'Usage' of below elements. E.g. for 'Sensitive Load' – should this be populated as 'None' for WA?		
4.6.2.1	General Comment: CDR and CDN examples provided in document refer to CSV files. These need to be replaced with aseXML sample transactions
