

RETAIL ELECTRICITY MARKET PROCEDURES
October 2021 CONSULTATION

PROCEDURE CONSULTATION
SECOND STAGE PARTICIPANT RESPONSE TEMPLATE

Participant: Red Energy and Lumo Energy

Submission Date: 21/12/2021

1. Context

This template is to assist stakeholders in giving feedback about the changes detailed in the draft procedures associated with the Retail Electricity Market Procedures October 2021 consultation. The changes being proposed are because of NER rule changes which have occurred requiring changes to AEMO's Retail Electricity Market Procedures and the following proposed changes by proponents and AEMO to implement recommended process improvements.

2. Questions on proposed changes

Heading	Participant Comments
Does your organisation support the proposals contained in the Issues Paper? If not, please specify areas in which your organisation disputes AEMO's assessment (include ICF reference number) of the proposal and include information that supports your rationale why you do not support AEMO's assessment.	Red Energy and Lumo Energy (Red and Lumo) do not object to the proposals contained in the Issues Paper.
Are there better options to accommodate the change proposals that better achieve the required objectives? What are the pros and cons of these options? How would they be implemented?	<p>With regards to changing the effective date of the following change information papers to 7 Nov 2022, Red and Lumo propose keeping the effective date as 1 May 2022 but making the provision of the additional information (Controlled load enumeration, GPS coordinates, Connection configuration) REQUIRED, and for these fields to become MANDATORY as of 7 Nov 2022. As AEMO is deploying the schema for these fields on 1 May 2022 and these will not be visible to participants, however, by allowing for the information to be provided and stored in AEMO's system (even if not visible) will assist to minimise market activities and transactions which will need to take place on 7 Nov 2022.</p> <p>Change information papers in question are:</p> <ul style="list-style-type: none">- Controlled Load Enumerations (CIP_049)- Connection configuration clarification (ICF_037)- GPS Coordinates Minimum Requirements (CIP_053)
