1. Context

This template is to assist stakeholders in giving feedback about the changes detailed in the initial draft procedures associated with the Retail Electricity Market Procedures October 2021 consultation.

The changes being proposed are because of NER rule changes which have occurred requiring changes to AEMO’s Retail Electricity Market Procedures and the following proposed changes by proponents and AEMO to implement recommended process improvements.

2. Questions on proposed changes

Heading	Participant Comments
Does your organisation support the proposals contained in the Issues Paper? If not, please specify areas in which your organisation disputes AEMO’s assessment (include ICF reference number) of the proposal and include information that supports your rationale why you do not support AEMO’s assessment.	
Are there better options to accommodate the change proposals that better achieve the required objectives? What are the pros and cons of these options? How would they be implemented?	
What are the main challenges in adopting these proposed changes? How should these challenges be addressed?	
Do you have any further questions or comments in relation to the proposals described above?	
Does your organisation have any feedback / suggestions that closely relates to the scope or impacts this consultation, but the nature of the feedback / suggestion warrant further investigations / discussion? If so, please include your feedback / suggestions. Please note that this feedback will be reviewed by AEMO at a later date, therefore will not be used for this consultation. AEMO will complete a preliminary assessment of the feedback assess the feedback and it may then form part of another consultation or the annual prioritisation process.

Standing Data document	<p>Section 9.1, Table 10</p> <p>Data Element: Suffix</p>	<p>There is a misalignment between the versions for the Standing Data for MSATS document and it is causing issues with the changes that were already consulted upon and agreed with.</p> <p>ICF_029 sought a reversion of the Register ID to NMI Suffix relationship that was imposed in version 5.0 of the document. This was in the Metering ICF Package 2020 Consultation and included in Version 4.51 of the document, as per the version history table. However, due to the misalignment between effective date and versions, this change was dropped in subsequent versions of the document.</p> <p>Please rectify as it does not reflect the correct sequence of changes that were approved prior to the new consultation being opened.</p>
