CONSULTATION – Second Stage

CONSULTATION PARTICIPANT RESPONSE TEMPLATE

Participant: AGL

Completion Date: 1 June 2022

Table of Contents

0.   Example Submission (Please delete this section)

General Instructions

1.   Please keep information in the clause numbers simple - eg no titles, comments etc. – put titles and text in the comment section.

2.   Please use a individual row for each comment on any each clauses.

3.   Old clauses only needed if there is no equivalent clause within the revised draft procedures.

4.   If an obligation exists in another instrument please identify the instrument and clause to assist in including guidance notes.

5.   Please only include comments either with suggested changes, issues or support. Please do not include 'No Comment'.

6.   See example below (please note the "comments" are sample only, they bear no relevance to the proposed changes):

Old Clause No	New Clause No	Comments
1.42(a)	2.15(a)	Service Order response Change response list from varchar(250) to an enumerated list
1.42(a)	2.15(a)	Suggest add 'Other' as part of enumerated list and add free text to support other
	2.25(a)(ii)	Table 5 "Description of use" should be reworded to "Description of typical use"
	3.6(a)	The MDP SLP (c 3.5.2) requires the meter serial ID to be provided. Suggest the MeterSerialID be added to the transaction.
	3.6(a)	Ensure MeterserialID is the same field used in other procedures
	2.15	Ensure character length for MeterSerialID matches MSATS field length

1. Service Order Process

Old Clause No	New Clause No	Comments
2.16.4		Consider renumbering this caluse to 2.16.3A so that upstream references and eany external references are not impacted
2.16.4(a)(i)		Make 'metering' sentence case – ie 'Metering' and delete 'and' at end of this point
2.16.4 (a)(ii)		Delete word 'In' at start of sentence for improved grammar
2.16.4(a)(iii)		Minor change to first sentence for improved grammar; ~~When a~~A NotifiedParty transaction with a ServiceOrderType of 'Re-energisation' and a NotificationStatus of 'SO Requested' is received.
2.16.4(e)		Include reference to preceding clause to ensure clear linkage If the Recipient has cancelled the De-energisation ServiceOrderRequest in accordance with clause (d) they must send a corresponding ServiceOrderResponse transaction with a ServiceOrderStatus of

2.   One Way Notification Process

Old Clause No	New Clause No	Comments
		No comment

3.   Technical Delivery Specification

Old Clause No	New Clause No	Comments
		No comment

4.   B2B Guide v3.8

Old Clause No	New Clause No	Comments
4.4(g)		Add additional words at end of sentence for clarity A Notified Party may choose to use the information provided as a way of determining what impact work assigned to other parties will have on their own work.
7.3.6 (a)		Include reference to aseXML OWN transaction When shared Fuse Arrangements are identified by the MC or Retailer, they are obligated to share this information with the DNSP via a standard industry aseXML OWN transaction. This may be an agent of these participants.

5.   B2B Guide v3.7.1

Old Clause No	New Clause No	Comments
4.4(g)		Add additional words at end of sentence for clarity A Notified Party may choose to use the information provided as a way of determining what impact work assigned to other parties will have on their own work.
6.5.1.6		Suggest adding a cross reference to the details fo the new interim transaction (c) An interim CSV solution has been implemented to meet Participants Rules obligations (MCs, Retailers and DNSPs) until a B2B OWN transaction is made available. See cl 7.3.6 for the CSV specification.
