

Part of Energy Queensland

23 December 2022

Mr Daniel Westerman
Chief Executive Officer
Australian Energy Market Operator
GPO Box 2008
MELBOURNE VIC 3001

Submitted via email to IESS@aemo.com.au

Dear Mr Westerman

Guide to Generator Exemption and Classification of Generating Units

Ergon Energy Corporation Limited (Ergon Energy) and Energex Limited (Energex), both distribution network service providers (DNSPs) operating in Queensland, welcome the opportunity to provide comment to the Australian Electricity Market Operator (AEMO) on its consultation on its *Guide to Generator Exemption and Classification of Generating Units*.

We have no additional comments on the changes proposed to accommodate the integrated storage systems rule change. However, to ensure consistency within the National Electricity Market, Ergon Energy and Energex suggest that clarification of the requirement to register should also be made in respect of uninterruptible generating plant, for example diesel uninterrupted power systems. In our view, this plant could be added to the list in Appendix A.

Should AEMO require additional information or wish to discuss any aspect of this response, please contact me on 0429 394 855 or Laura Males on 0429 954 346.

Yours sincerely,

Alena Christmas
