4. Metering Installation Exemption Guideline (New Document)

Section	Participant Comments
3. Application process	
3.1 Generally	No comment
3.2 Responsibility	No comment
3.3 Supporting Information to support Application	No comment
4. Creation and Management of an Application	
4.1 Exemption life cycle	<p>Section 4.1 states that each exemption may contain between 1 to 100,000 NMIs that are of the same Exemption category, Exemption type and Nature of exemption. When AEMO approves an exemption with a large number of NMIs and notifies the participants that the exemption has been approved, it is expected that AEMO will send eligible participants a CATS Notification for every NMI in the exemption, with these notifications appearing in participants' OutBox. Approval of exemptions that contain large numbers of NMIs has the potential to flood the market and potentially generate Stop Files (if participants cannot process these notifications quickly enough).</p> <p>CitiPower Powercor queries if such exemption approval notifications will be throttled so as to avoid Stop Files?</p>
4.2 Navigation to exemptions	No comment
4.3 Exemption list	No comment
4.4 Creating a new exemption	No comment

Section	Participant Comments
4.5 Reviewing an exemption	No comment
4.6 Providing more information	No comment
4.7 Managing an exemption	No comment
4.8 Viewing closed exemptions	No comment
4.9 Exemption notifications	<p>CitiPower Powercor identifies four items as follows:</p> <ol style="list-style-type: none"> <li data-bbox="472 756 2063 831">1. CitiPower Powercor notes that as part of the Meter Exemptions Consultation, 4 new SDQ reports are defined as per the following screen print:

4.4.5 Metering Installation Exemption Guideline	Added new Metering Installation Exemption Guideline document	<p>CitiPower Powercor recommends applying consistency to the name of the guideline across various communication channels. For example:</p> <ul style="list-style-type: none"> The Guideline document is titled ‘Meter Exemptions Guideline’ Document links on consultation webpage https://aemo.com.au/consultations/current-and-closed-consultations/metering-installation-exemption-automation-consultation refer to the Guideline document as the ‘Metering Installation Exemption Guideline’
