

Notice of call for submissions on Procedure Change Proposal

Clause 2.10.7 of the Wholesale Electricity Market Rules

Procedure Change Proposal No:	AEPC_2023_03
Name of WEM Procedure:	Dispatch Algorithm Formulation Updates
Date of this notice:	26 October 2023

This notice informs all Rule Participants and interested parties that AEMO has published a Procedure Change Proposal in respect of the WEM Procedure: Dispatch Algorithm Formulation. AEMO invites submissions on the Procedure Change Proposal.

This consultation is being conducted in accordance with the Procedure Change Process set out in clause 2.10 of the Wholesale Electricity Market Rules (WEM Rules).

Matter under consultation

The publication of this notice of call for submissions commences the Procedure Change Process conducted by AEMO under section 2.10 of the Wholesale Electricity Market Rules (**WEM Rules**). This Procedure Change Proposal relates to amendments to the WEM Procedure: Dispatch Algorithm Formulation.

This Procedure Change Proposal addresses changes arising from:

- Allowances on ESS Trapezia where because of mandatory droop response, AEMO has observed multiple facilities were becoming unavailable for ESS when they dipped below their Enablement Minimum. AEMO has modified the ESS Pre-Processing calculations in paragraph 2.5 of the Dispatch Algorithm Formulation.
- Removal of lower bound on Contingency variables: certain Network Contingencies can become negative when large loads occur (e.g. the Contingency is non-existent). To avoid violations, AEMO has removed the lower bound on the Contingency variable.
- Additionally, AEMO identified several implementation bugs to be resolved and has made some minor clarifications to other areas of the formulation.

Further details are provided in the Procedure Change Proposal published with this notice. The proposed amended WEM Procedure is also published with this notice.
