2009-07	Add Australian Standards to the December meeting agenda	AEMO	Before December meeting	

Standing list of consultation items

Issue	To be included in what B2B Procedures version?	Status	Notes
B2B Guide refresh		2 - Requirements determined, content in development	Networks to confirm their sections
Fields tied to an Australian Standard		1 - Determining requirements	AEMO to organise an analyst resource to look at description changes and if they have any technical impact

ITEMS FOR DISCUSSION OR NOTING

2.1 Shared Fuse ICFs – Review of Feedback - Paul Greenwood (Vector) / Nandu Datar (AEMO)

Discussion:

- Nandu Datar (AEMO) talked to the collated responses on the 'Distributors' section. The responses indicated preference for using CSV. Paul Greenwood indicated (Vector) they did not support CSV option.
- Helen Vassos (PLUS ES) indicated that Meter fault and issue notification (MFIN) could be used.
- Meghan noted the interim solution is to use CSV given this needs to be running by May 2022.
- Nandu talked to the collated responses received on the 'All B2B members' section. The responses indicated preference for the B2B guide option. PLUS ES and Simply energy indicated to include in B2B guide and also in the procedures.
- Paul noted that inclusion in the B2B guide depends on agreement by all members as the guide is not enforceable. If everyone do not agree then it needs to go in the procedure.
- Meghan noted that communicating presence of shared fuse in B2B guide is an interim step until consultation on inclusion in the procedures occurs.

Actions:

- AEMO to draft wording for inclusion in the B2B guide
- B2B WG members to provide feedback on the wording
- AEMO to document wording for what the B2B WG ask their business about MFIN or new one way notification and also include potential for CSV
- AEMO to talk to IT about MFIN and csv.
- B2B WG to discuss with their business about use of MFIN or new transaction
- Develop an ICF to either extend the use of MIFN or create a new independent one way notification.

2.2 Coincident service orders and multiple service providers update – Meghan Bibby (AEMO)

Discussion:

- Meghan noted the analysis is not ready on the survey, and proposed that a meeting at end of Oct to review the analysis and the draft paper to go to the IEC

Actions:

- AEMO to provide the analysis for review to B2B WG
- AEMO to organise a short meeting (29 Oct 10:30am) to review B2B feedback

2.3 Industry Workshop on Life Support Processes – Mark Riley (AGL)

Discussion:

- Mark Riley (AGL) noted that given there are going to be some changes in B2B related to life support on 10 November, AGL life support team had questions about how the Networks are going to respond and how people were going to request further actions in

the new environment and asked for a workshop the outcome of B2B changes and the key scenarios facing in life support.

- Joe Castellano (Origin) queried if there is an opportunity to bring along any other questions.
- AEMO to set up the workshop for B2B WG will run the workshop.

Actions:

- AEMO to set up the workshop for Life support on 27 October

3 OTHER BUSINESS

3.1 Wrap-up, actions, questions, parked issues

Nandu Datar (AEMO) informed the B2B-WG of the actions generated at this meeting. These are reflected in the Action register. The next B2B-WG meeting is 10 November 2021.

Parked items: B2B guide refresh and Fields tied to an Australian standard.
